We asked, "What do you Love, Lament and Long for..."

**Prelude:**

<i>solo:</i>	I can hear the Oceans cry;
<i>upper voices 1:</i>	We have to stop pollution!
<i>solo:</i>	Blue skies turn to black skies;
<i>half chorus:</i>	We're all a large community, we've got each other's back!
<i>all:</i>	Deforestation;
<i>solo:</i>	What have we done?
<i>all:</i>	There's always something more than us!

**Section A** *Love...*

I love the way the sky seems endless;  
I love the green and the beautiful plants;  
I love the way the sky seems endless;  
The blackbird's song in the night.

**Section B** *Lament...*

Pain and suffering on earth's helpless creatures;  
Every day we push poison in the air;  
We no longer hear meadows sing, nor mountains take a breath;  
Wish more people showed care about our nature, water and air!

**Section C** *Long for...*

We would love to see the flowers bloom, the trees grow, and the animals live their lives;  
A wild flower, pushing through, melting snow, into Spring Time;  
Beautiful colours of the trees;  
Buzzing bees, and pretty singing birds, the wonderful feeling that new beginnings bring.

<i>upper voices 1:</i>	And now there won't be bleak skies anymore;
<i>everyone else:</i>	No more bleak skies, ah...
<i>upper voices 1:</i>	'cause now there's always clear skies like before;
<i>everyone else:</i>	Welcome clear skies;

Beautiful colours of the trees!

**Coda** *In 4 part round:*

Beautiful colours of the trees; Beautiful colours of the seas; Beautiful colours of the sky...;

**Endless! Endless Sky!**

I wonder at the Endless Sky... (repeat 4x and fade)
